

Landfill Gas Information Needed to Apply

Please note that **this is NOT an application** for PA AEPS certification, the application must be completed online at <https://pennaeps.com/>

1. Installation Address _____

2. Online Date (Date System Energized) _____

This is the date your system was turned on, left on for operation, and began continuously tracking production. Note that the date entered is in Year-Month-Day. If your system was turned online prior to the year 2014, you must type the year in manually.

3. Interconnection Approval Date _____

This must match the date on the form you upload in Step 4.

4. Total System Size (AC) in kW

5. Description of your facility

6. System Photos

7. A Certificate of Completion (CoC), or Permission to Operate (PTO), or other utility issued document confirming commercial operating date is required for all systems. *This will contain the date that the utility granted final approval to operate the system.*

8. If an application is submitted more than 30 days after utility interconnection approval is issued, a meter photo is required. *This may be taken from a dedicated meter showing the reading or from an online monitoring portal, if applicable. Photos from bi-directional meters are not allowed for verification purposes as they reflect the net production and consumption of a system.*

9. If you have selected an aggregator to manage your system, either a Recognition of Assignment (ROA) or a Schedule A is required. *An ROA is required for leased/PPA systems while a Schedule A is required for non-leased/PPA aggregated systems. Please thoroughly review the document and ensure that all required signatures are*
