

Other Technology Types Information Needed to Apply

Please note that **this is NOT an application** for PA AEPS certification, the application must be completed online at <https://pennaeps.com/>

1. Installation Address
-

2. Online Date (Date System Energized)
-

This is the date your system was turned on, left on for operation, and began continuously tracking production. Note that the date entered is in Year-Month-Day. If your system was turned online prior to the year 2014, you must type the year in manually.

3. Interconnection Approval Date
-

This must match the date on the form you upload in Step 4.

4. 'Other' Technology Type- Select One

- Low Impact Hydro
- Large Scale Hydro
- Captured Methane - Coal Mine
- Waste Coal
- Fuel Cell – Renewable
- Fuel Cell - Non-Renewable
- Gas - Blast Furnace Gas
- Gas -Other
- Distributed Generation Combined Heat and Power Projects
- Biomass-Agriculture
- Biomass-Other
- Biomass Gas
- Biomass- Other Biomass Liquids
- Biomass-Other Biomass Solids
- Biomass- Poultry Waste

InClima, Inc. is the Third-Party Program Administrator for the Pennsylvania Alternative Energy Portfolio Standards Program

- Biomass-Sludge Waste
- Biomass-Swine Waste
- Pumped Storage
- Solid Waste-Municipal Solid Waste
- Waste Heat
- Wood-Black Liquor-In PA
- Wood Waste Liquids-In PA
- Industrial By-Product
- Demand Side Management

5. Total System Size (AC Watts)

6. Description of your facility

7. System Photo(s)

8. A Certificate of Completion (CoC), or Permission to Operate (PTO) document, or other utility issued document confirming commercial operating date is required for all systems. *This will contain the date that the utility granted final approval to operate the system.*

9. If an application is submitted more than 30 days after utility interconnection approval is issued, a meter photo is required. *This may be taken from a dedicated meter showing the reading or from an online monitoring portal, if applicable. Photos from bi-directional meters are not allowed for verification purposes as they reflect the combined production and consumption of a system.*

10. If you have selected an aggregator to manage your system, either a Recognition of Assignment (ROA) or a Schedule A is required. *An ROA is required for leased/PPA systems while a Schedule A is required for non-leased/PPA aggregated systems. Please thoroughly review the document and ensure that all required signatures are present.*

11. Depending on facility type, current permits will need to be provided. Please refer to the permits list below and upload them to the additional paperwork field.

Other Technology Types Documentation Needed to Apply

Tier I

Technology	Permits
Low-impact hydropower	Possible: FERC license From DEP: Water Quality Certification (401); Water Obstruction and Encroachment Permit (105); Non-Point Discharge Elimination System Permit for Stormwater Discharges Associated with Construction Activities (102); Pennsylvania Limited Power Permit; Submerged Lands License Agreement; LIHI Certificate
Geothermal energy	none
Biologically-derived methane gas	Air Quality Operating Permit/Possible Waste Management Permit
Fuel cells	Air Quality Operating Permit
Biomass energy	Air Quality Operating Permit/Possible Waste Management Permit
Coal mine methane	Air Quality Operating Permit

Tier II

Waste Coal	Air Quality Operating Permit/ Waste Management Permit/Mining Permit
Distributed generation systems	Air Quality Operating Permit
Demand-side management	none
Large-scale hydropower	Possible: FERC license From DEP: Water Quality Certification (401); Water Obstruction and Encroachment Permit (105); Non-Point Discharge Elimination System Permit for Stormwater Discharges Associated with Construction Activities (102); Pennsylvania Limited Power Permit; Submerged Lands License Agreement
Municipal solid waste	Air Quality Operating Permit/Possible Waste Management Permit
